

Nursing News- Summer 2025

The warm summer months are upon us, and we thrilled to see residents and their families enjoying the long days and sunshine in the serenity garden. We will soon be enjoying fresh vegetables grown in the raised garden boxes. We encourage everyone to be mindful of high UV index and dehydration, and to apply sunscreen and wear hats when out in the sun.

Please note that our process for annual care conferences has changed to ensure that Dr. Stewart can address resident's needs during his weekly visit. Please look for an email update from Wanda.

If your loved one has clothing items that no longer fit or items they are no longer using, we kindly ask that you take these items home. Some rooms are very cluttered, and it affects our ability to use proper body mechanics to ensure resident and staff safety. Some closets are so packed, there is very little space for hanging clean clothes. Staff will set aside clothing items that do not fit residents and will put a note indicating this in the resident's closets.

Wishing you a safe, happy, and healthy summer. We look forward to seeing you all during your visits with your loved ones.

Sincerely,
Lindsay Johnston
Director of Nursing
